## EXPERIENCE

---

**FullStack Developer** - Fieldshare (Vancouver, BC, CA) Sep 2021 - Present

- Produced a **200%** user increase through a UI transition across web and mobile applications with React and React Native, following 8px grid system methodology and collaborating with the UI/UX designers with Figma.
- Over **40** great feedbacks by trimming the application's query search response time from 4 seconds to 1.5 seconds by integrating Elasticsearch.
- Enhanced application deployment efficiency from manual operations to full automation by CI/CD pipeline, aligning testings with Testing Library, Jest and JUnit, and deploying to ECS docker-containers.

**Software Developer Internship** - Goopter eCommerce Solutions (Burnaby, BC, CA) Apr 2021 - Aug 2021

- Achieved a **10%** decline in the mobile application RAM consumption by proposing a Multithreading to lighten the burden on the UI thread.
- Removed **30** code files and enhanced code transparency by transitioning to REST API with Clover for mobile payments, eliminating the need for SDK integration.
- Boosted code quality by solving **100** Jira tickets, utilizing Git for version control, Bitbucket for code repository, and reviewing and offering feedback on peer PRs.

**Software Developer Internship** - Wiseman (Morioka, Iwate, JA) Mar 2019 - Apr 2019

- Maintained **Japanese No.1** patients' personal identification information tracking system with Spring and MySQL and emphasized class abstraction and adherence to OOP principles.
