EXPERIENCE

FullStack Developer - Fieldshare (Vancouver, BC, CA)   Sep 2021 - Present
- Produced a **200%** user increase through a UI transition across web and mobile applications with React and React Native, following 8px grid system methodology and collaborating with the UI/UX designers through Figma.
- Received over **40** great feedbacks by trimming the application's query search response time from 4 seconds to 1.5 seconds by integrating ElasticSearch.
- Enhanced application deployment efficiency from manual operations to CI/CD pipeline automation, aligning testings with Testing Library, Jest, and JUnit, and deploying to ECS docker containers.

Software Developer Internship - Goopter eCommerce Solutions (Burnaby, BC, CA)   Apr 2021 - Aug 2021
- Achieved a **10%** decline in the mobile application RAM consumption by proposing a Multithreading to lighten the burden on the UI thread.
- Reduced **30** code files and enhanced code transparency by transitioning to 3rd party REST API for mobile payments, eliminating the need for SDK integration.
- Optimized web interfaces and developed reusable UI components that expedited onboarding for new developers and improved the overall Developer Experience(DX).

Software Developer Internship - Wiseman (Morioka, Iwate, JA)   Mar 2019 - Jun 2019
- Maintained **Japanese No.1** patients' Personal Identification Information(PII) tracking system with React and Spring by solving 50 Jira tickets and reviewing and offering feedback on peer Pull Requests.
